

Project Benefits

I-64 Capacity Improvements - Segment III

UPC 106689 / Project: 0064-965-229

From: 1.15 miles west of Route 199 - Lightfoot

To: 1.05 miles west of Route 199 - Humelsine Pkwy/Marquis Center Pkwy
York County, Virginia

- ✓ Increases interstate capacity and safety
- ✓ Decreases congestion and travel delays
- ✓ Improves emergency use and access with widened 12-foot shoulders
- ✓ Improves access to the Historic Triangle, the Port of Virginia, and connectivity between military installations
- ✓ Reduces right-of-way and interchange impacts by widening primarily towards the median
- ✓ Lengthens the acceleration and deceleration lanes at interchange ramps
- ✓ Replaces and widens the Queens Creek bridges
- ✓ Improves the off-ramp at the Camp Peary exit
- ✓ Widens and repairs bridges over Colonial Parkway and Lakeshead Drive
- ✓ Maintains 2 lanes of traffic in each direction on I-64 throughout construction, with occasional overnight lane closures
- ✓ Landscaping focusing on corridor aesthetics
- ✓ Provides repair and stabilization of eroded drainage outfalls
- ✓ Noise walls to be enhanced with brick pattern embracing the Historic Colonial area, plus a transparent noise wall at the eastern end of the eastbound bridge across the Queens Creek waterway
- ✓ Design-Build approach provides accelerated project delivery
